B.E (Information Technology)
Savitribai Phule Pune University

*08/2014 - 05/2017*   *70.86 %*

Diploma(Information Technology)
Govt. Polytechnic Awasari Pune(MSBTE)

08/2011 - 05/2014   *70.63%*

WORK EXPERIENCE

Software Engineer
Xoriant Solution PVT LTD

11/2021 - Present   *Pune*
Achievements/Tasks

- Implemented POC using React, material Ui, CSS3, and HTML5.
- Used React for building rich internet applications, and improved the speed and performance.
- Attended everyday enterprise workflow stand-up meeting to provide status.
- Utilized Material UI to design user friendly UI.
- Developed JavaScript functions to fetch data from API.
- Used JavaScript for writing various timer controller scripts for the websites, including form page validator dynamic content, and worked on an object-oriented approach.
- Deployed the application code on EC2 Instance.

Software Engineer
Tech Mahindra LTD

06/2018 - 11/2021   *Pune*
Achievements/Tasks

- Designed dynamic UI using React, Bootstrap 4,CSS3 and HTML5.
- Attended everyday enterprise workflow stand-up meeting to provide current status thus implementing Agile (Scrum) methodology.
- Developed JavaScript functions to fetch data from Google Analytics/ API.
- Used JavaScript for writing various timer controller scripts for the websites, including form page validator dynamic content/ rollover, and worked on an object-oriented approach.
- Engaged in unit testing with Jest, and deployed the application code on the web server.
- Resolved end-user incidents by meeting the SLA requirements, which led to an increase in user satisfaction.

SKILLS

React JS   JavaScript   HTML5   Bootstrap

Redux   CSS3   MySQL   Git   Material UI

VSCode   Postman   Swagger   Rest API

Basic Azure and EC2   Core Java

PROJECTS

XORPAY Consolidated Framework (11/2021 - Present)

- XOR Framework is a web application that provides industry-wide change to adapt to ISO 20022 (MX) standards for payments and cash management messages over SWIFT for cross-border payments.
- By November 2025, all entities involved in cross-border payments need to be aligned to use ISO 20022 messages for payments and cash management. XorPay Mapper is designed to accelerate this conversion with the following benefits.
- Expedite solution implementation and associated costs for integration.
- Maximize existing IT investments, by enhancing and extending existing legacy systems and messages/ data from multiple sources.

Baker and Taylor (02/2019 - 10/2021)

- Baker and Taylor is a web application that provides books, digital content, and technology solutions to help public libraries improve community outcomes through literacy and learning. Developed long-term relationships with major book and music labels.
